

Athletes Network

Working Student Finance Accounting & Reporting 60 – 80%

Are you motivated to gain work experience in a large company besides your studies and are you interested in finance topics?

ZGEBS (Zurich Global Employee Benefits Solution) is a dynamic and international Business Unit responsible for Zurich's largest multinational customers' employee benefits around the world.

As part of our ZGEBS Finance team, you will be supporting the International Financial Reporting Standard 'IFRS 17' project as well as further improving the Financial End-to-End processes. Furthermore, you will play a key role in the development enhancing of the financial data.

In this role you will be part of a dynamic team and working on multiple tasks where you can expect a steep learning curve. You have the chance to build your network within an international environment at Zurich Insurance and Reinsurance as well as to develop your quantitative skillset and learn about Finance topics like IFRS 17 implementation, Swiss Local Stat requirements, etc.

If a proactive and customer-focused mindset is as important to you as it is to us, then this could be your next career opportunity.

What you will do

- You support the Finance Accounting & Reporting (FAR) deliverables related to IFRS 17 (International Financial Reporting Standard) activities
- You support with assessing and implementing the Chart of Account (CoA) changes including review of CoA mappings and the new 'Reposting program'
- You contribute to continuous improvement of the FAR control environment and support with automatizing and documenting finance activities to continuously improve and simplify finance processes
- You participate in the local initiative to establish a strong end-to-end workflow process including liaising with different internal stakeholders

What you bring

- Enrollment as a student in a university/college of higher education preferable in Finance, Business Administration, Economics or similar
- Team-oriented with willingness to work flexibly and tackle new challenges in a fast-changing environment
- Excellent Excel skills and openness to explore different tools

Athletes Network

- Pragmatic approach to problem solving, combined with a precise and thorough working style
- Experience in SAP, Database Management and visualization tools (SQL/Access/Power BI) is desired (not a must)
- Fluency in English (spoken and written) is required

Additional Information

Full time and part time: 80-100%

Work location: Zurich

Flexwork according to internal guidelines up to 0-40% possible (maximum 20% abroad).
